May 2024
Dean's List

The University of Iowa, College of Liberal Arts and Sciences, Iowa City, IA
Bachelor of Arts in Informatics
Concentration: Economics

May 2023
Dean's List

TECHNICAL SKILLS

- Tools: Power BI, SQL, Tableau, Excel, Power Query, Power Automate, Python, JavaScript, HTML/CSS, Pandas/NumPy
- Methodologies: business intelligence, data analysis, data visualization, database management, predictive analytics

PROFESSIONAL EXPERIENCE

Data Analytics Developer, Kru-Marc Inc. (AbbVie Client)
Chicago, IL

May 2025 – Present

- Developed interactive Power BI dashboards (CURO) and automated paginated reports used by AbbVie field representatives and franchise leadership to monitor sales execution and campaign performance
- Transformed and structured enterprise data using SQL and Power Query to support scalable reporting models for Power BI dashboards and automated reports
- Designed SQL and DAX queries to extract and analyze pharmaceutical commercial execution metrics across AbbVie therapeutic areas, including Immunology, Parkinson's, FRM, Migraine/Psych, Samples, Conventions, and Puerto Rico
- Work directly within the AbbVie client environment, collaborating with cross-functional teams and attending weekly onsite meetings at ABVI

Student Data Analyst, Des Moines Diocese
Iowa City, IA

August 2023 – May 2024

- Built predictive models to forecast demographic trends and population shifts, helping leadership plan long-term school and parish resource allocation
- Developed Tableau dashboards to enhance decision-making for regional resource distribution of schools and churches.

Economics Teaching Assistant, Tippie College of Business
Iowa City, IA

August 2023 – May 2024

- Led discussion sections for 100+ students covering quantitative microeconomic concepts
- Utilized real-world examples and economic simulations to demonstrate how microeconomic theory applies to real-life decision-making

Business Systems Analyst Intern, Origami Risk
Chicago, IL

May 2023 – August 2023

- Collaborated with senior technical consultants and solution architects to configure systems, ensuring optimal performance and client satisfaction
- Provided comprehensive technical support, leveraging proficiency in SQL and exposure to XML, HTML, and JavaScript
- Supported solution testing and validation by analyzing system data and assisting consultants in troubleshooting configuration and workflow issues

DATA COMPETITIONS

1st Place – Database Design & Data Analytics, USITCC
Dallas, TX

March 2023

- Executed SQL queries ranging from basic to advanced, delivering a functional database system aligned with business needs
- Analyzed raw datasets to extract actionable insights and created dynamic visualizations using Tableau
- Authored a professional 5-page executive report and delivered a presentation showcasing technical and strategic solutions to drive business success
- Collaborated with a teammate to translate technical findings into clear business recommendations for judges and industry professionals
